WHAT HAPPENED

Our scan on July 02, 2026 recorded Beyond Stem Cells Medical Spa at position #15, down from #8 in the prior week--a 7-position drop. Over the same period, RegenRx | Regenerative Medicine and Wellness Clinic Denver (now ranked #2) gained 2 new reviews, Advanced Regenerative Health gained 4 new reviews, and Cendant Stem Cell Center gained 1 new review, while your practice added reviews at a measured pace of 4.4 per week.

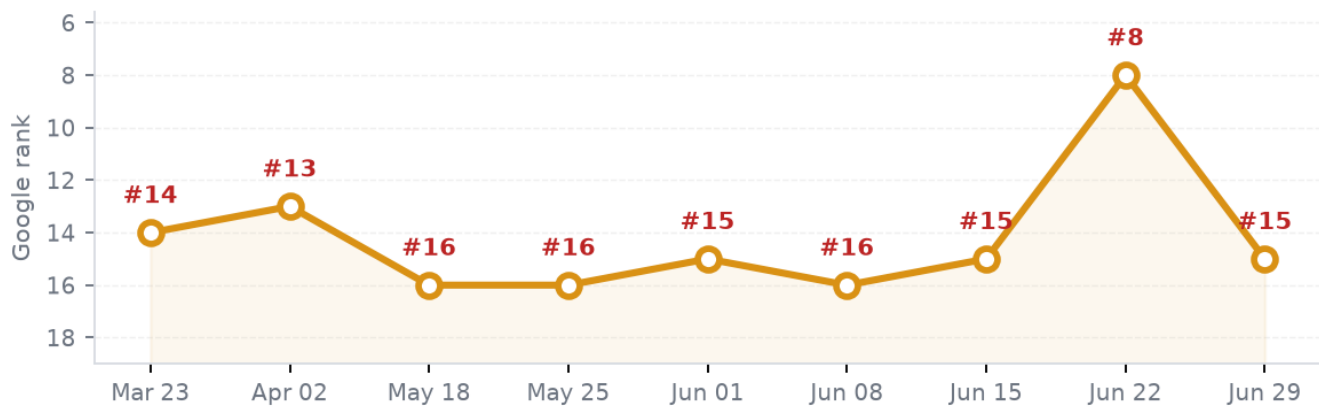

WHY YOU SLIPPED

- [HIGH CONFIDENCE] Your profile experienced a 7-position rank drop in a single week while competitors directly above you accrued new reviews. RegenRx gained 2 reviews and holds a 5.0 rating; Advanced Regenerative Health gained 4 reviews. Your review velocity of 4.4 per week during this 7-week window is solid, but the data suggests competitors are accumulating reviews faster in aggregate.
- [HIGH CONFIDENCE] Ranking volatility is the dominant pattern in your account. Over 9 scans across 14 weeks, your positions ranged from #8 (best) to #16 (worst), and the most recent 6-week trend shows: #16, #16, #15, #16, #15, #8--then this week's drop to #15. This volatility makes it difficult to isolate a single cause.
- [MEDIUM CONFIDENCE] Two competitors above you hold higher ratings than your 4.9 stars. While your review volume (192 reviews, 90th percentile in the category) exceeds most competitors, RegenRx holds a 5.0-star rating and ranks #2. The local pack's average rating is 4.76 stars; your 4.9 exceeds the median but may not offset competitors with perfect or near-perfect ratings in close ranking scenarios.

YOUR STANDING

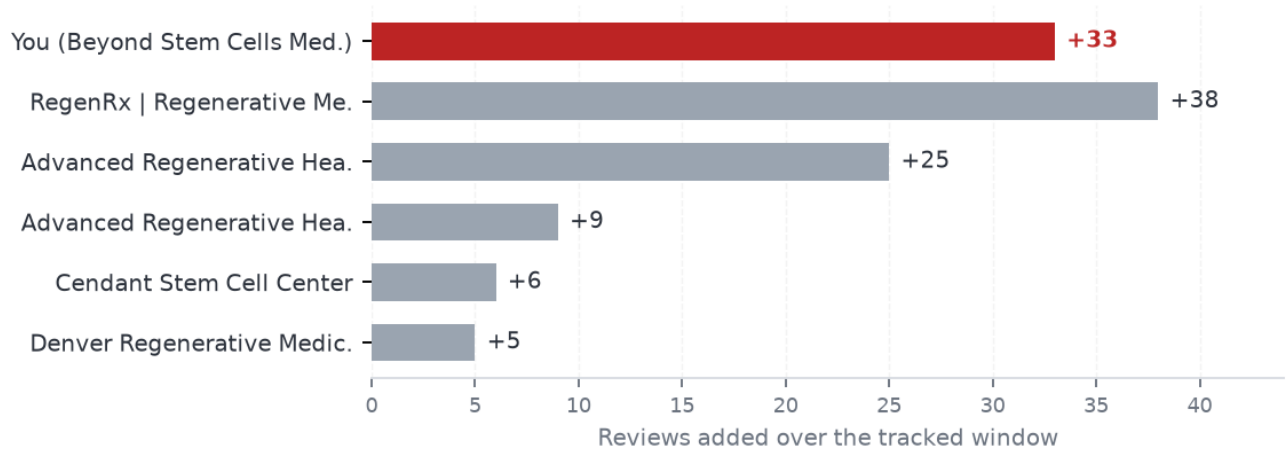

Confidence score is 10/10, based on complete data. Your ranking drop is real and measurable. However, the 7-position swing fits a volatile 14-week pattern, so this drop does not necessarily signal a sustained decline. Monitor next week's scan before implementing major strategy changes.

YOUR RANKING TREND (14 WEEKS)

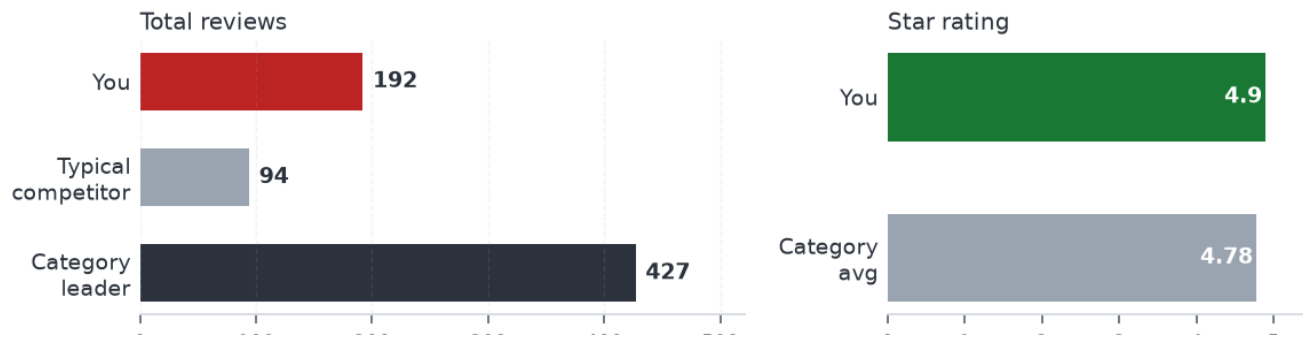

Your rank is swinging week to week, a sign Google is re-testing you against rivals. Consistent profile activity stabilises it.

THE REVIEW RACE -- WHO'S PULLING AHEAD

Reviews and their recency drive roughly 16% of local-pack position (Whitespark 2025). Competitors are adding them faster than you -- the top rival gained 38 in this window.

HOW YOU COMPARE IN YOUR CATEGORY

By review volume you are in the 90th percentile of your 20-listing pack -- ahead of most of your market. The category leader holds 427 reviews; the typical competitor holds 94.

You already hold more reviews (192) than the 14 listings ranked above you (avg 100). That points away from raw review count and toward proximity, your primary Google category, review recency, and profile activity as what is moving your rank. The recovery plan targets exactly those.
