WHAT HAPPENED

Seattle Specialty Dentistry dropped from position #4 to position #13, a 9-position decline recorded on September 10, 2026. During the same scan period, three competitors in the local pack gained new reviews--Aesthetic Dental Associates gained 1, Seattle Dental Studio gained 2, and Prestige Dental gained 1--while your profile recorded zero new reviews this week.

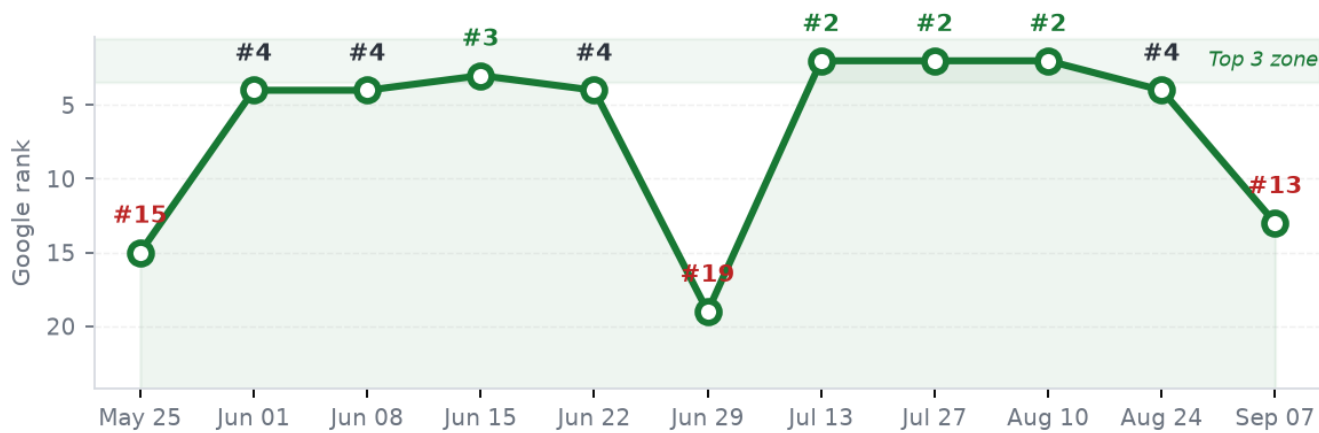

WHY YOU SLIPPED

- [HIGH CONFIDENCE] Review velocity has stalled. Your profile gained 0.47 reviews per week over 15 weeks, compared to Seattle Smiles Company which gained 4 reviews during the same scan period and climbed 11 positions. Google's local ranking algorithm favors active review accumulation; competitors gaining reviews while you plateau likely contributed to the rank drop.
- [MEDIUM CONFIDENCE] Your rank trend has been volatile over the 15-week period. The data shows positions ranging from #2 (best) to #19 (worst), with this week landing at #13. While the overall direction shows improvement since week 6, the high volatility suggests ranking instability rather than sustained growth.
- [MEDIUM CONFIDENCE] Review volume gap widening relative to top performers. The category leader holds 807 reviews versus your 382. While you rank in the 75th percentile by review volume, your stagnant review velocity means this gap will continue to widen if competitor review rates accelerate.

YOUR STANDING

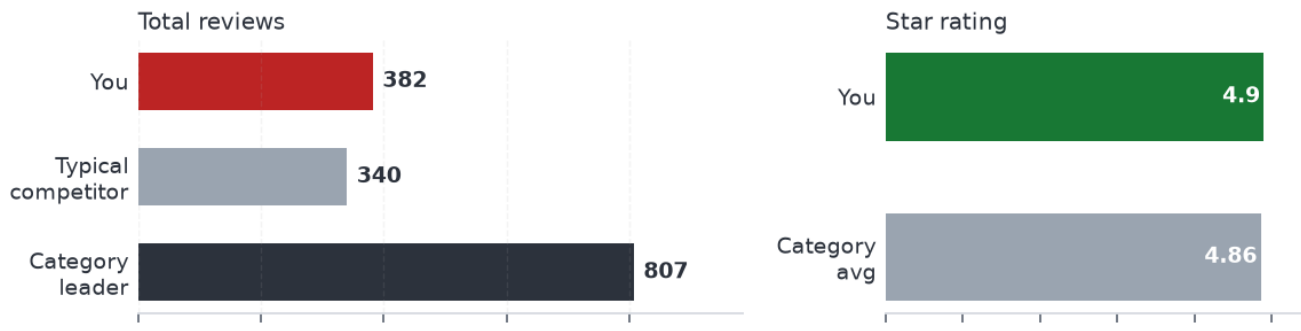

Confidence score is 10/10, meaning this data is complete and reliable. The 9-position drop is sustained and significant. However, your volatile rank history over 15 weeks suggests that a single week of strong review activity could shift your position back toward #4. Do not assume this drop is permanent, but do treat the review stagnation as urgent.

YOUR RANKING TREND (15 WEEKS)

Trending up -- keep the review and posting cadence that is working.

HOW YOU COMPARE IN YOUR CATEGORY

By review volume you are in the 75th percentile of your 20-listing pack -- ahead of most of your market. The category leader holds 807 reviews; the typical competitor holds 340.

WHO'S WINNING YOUR MARKET

#	Business	Rating	Reviews	Rev +/-
#1	Aesthetic Dental Associates	4.8	416	--
#2	Advanced Cosmetic and Implant Dentistry	4.9	100	--
#3	Seattle Dental Studio	4.9	335	--
#4	Prestige Dental	4.8	281	--
#5	Seattle Dental Co.	4.9	807	--
#6	Aesthetica Contemporary Dentistry	4.9	370	--
#7	Seattle's Capitol Hill Dentist	4.8	185	--
#13	Seattle Specialty Dentistry <- YOU	4.9	382	--

You already hold more reviews (382) than the 12 listings ranked above you (avg 332). That points away from raw review count and toward proximity, your primary Google category, review recency, and profile activity as what is moving your rank. The recovery plan targets exactly those.

WHO'S MOVING

- Your pack has been stable this window. Stability is an opportunity: a steady push on reviews and profile activity can move you up while rivals hold still.

DO THIS NEXT

1. Implement a post-visit review request workflow for cosmetic dentistry patients. Why now: Zero reviews this week while competitors each gained 1-2 suggests a systematic gap in your review capture process. Effort: Low. Expected impact: High.
2. Analyze your top 5 highest-rated reviews for common themes (smile transformation, patient comfort, staff) and emphasize those in patient communication. Why now: Your 4.9-star rating matches the market average and top competitors, but review volume, not rating, is the ranking driver. Effort: Low. Expected impact: Medium.
3. Audit your Google Business Profile completeness (hours, photos, services, Q&A). Why now: At position #13, you reach 87.9x fewer searchers than top-3 listings. Even incremental profile optimization may help stabilize rank. Effort: Low. Expected impact: Medium.
