WHAT HAPPENED

During the 10-week scan window, your business gained 0 new reviews this week while Advanced Aesthetic Dentistry (currently #3) gained 2 new reviews, Icon Dental (#4) gained 1 new review, and Smile Studio Dental - Denver (#5) gained 2 new reviews. Your review volume sits at 193 total, placing you in the 20th percentile of the category--the typical competitor has 616 reviews.

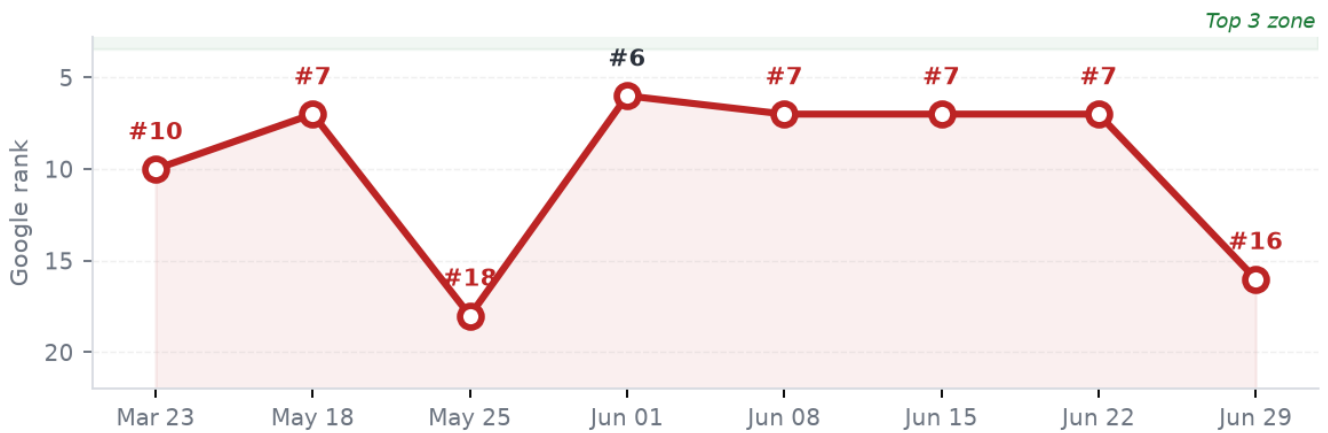

WHY YOU SLIPPED

- [HIGH CONFIDENCE] Multiple competitors in the top 5 gained reviews during your zero-review week. The data suggests review velocity is a ranking factor in this category, and your profile stalled while others continued gaining social proof.
- [HIGH CONFIDENCE] My Cherry Creek Dentist climbed 11 positions to #8 and gained 5 reviews during the scan period, while RiNo Dental climbed 9 positions to #9 and gained 18 reviews. Both moves correspond with active review accumulation.
- [MEDIUM CONFIDENCE] Your 14-week rank history shows volatility: positions ranged from #6 (best) to #18 (worst), suggesting your current #16 position may reflect a wider instability rather than a single-week anomaly. The 6-week sub-trend was improving, but the broader 14-week trend is declining.

YOUR STANDING

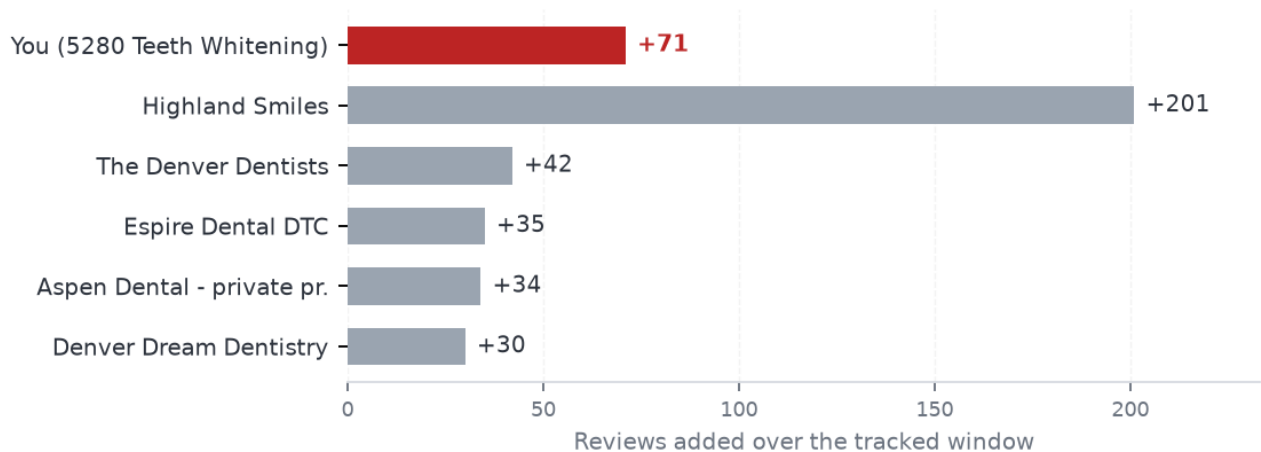

Your confidence score is 10/10, meaning this data is complete and reliable. However, a single zero-review week against normally strong velocity (5.07/week) may not represent sustained performance. Monitor next week's scan closely to confirm whether this drop is temporary or reflects a new competitive threshold.
