### WHAT HAPPENED

Boston Smile Center dropped from rank #10 to #19 on October 29, 2026, a decline of 9 positions. During the same period, competitors gained meaningful review volume: Ace Dental Boston added 8 new reviews, Integrity Dental Boston added 4 new reviews, and Turning Leaf Dental added 27 reviews while climbing 4 positions to #10. Your profile recorded zero new reviews this week.

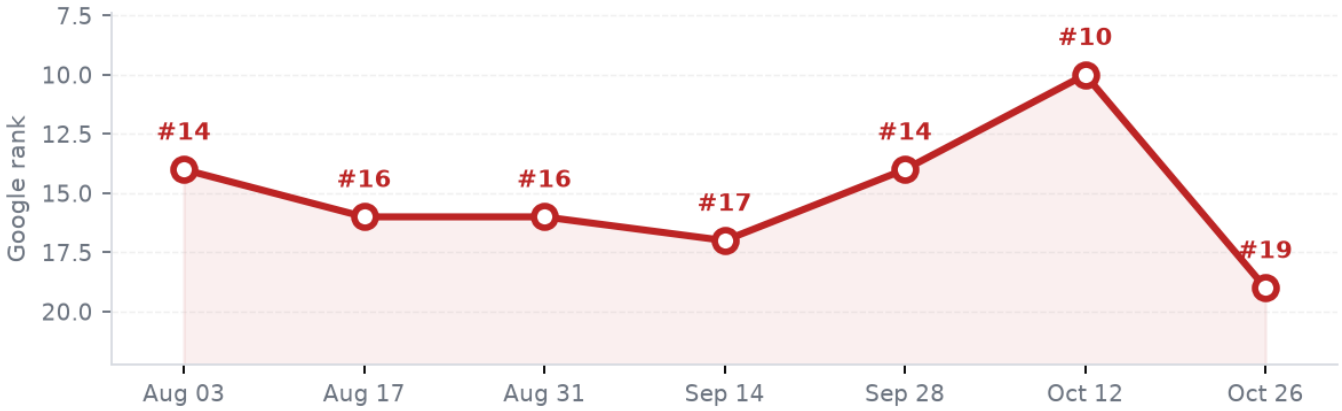

### WHY YOU SLIPPED

- [HIGH CONFIDENCE] Review velocity has stalled. Over the past 12 weeks, you gained only 1 review (0.08 reviews per week), while Ace Dental Boston gained 45 total reviews to reach rank #6. The data suggests Google's ranking algorithm favors actively reviewed businesses, and competitors with higher review velocity are displacing your position.
- [HIGH CONFIDENCE] Turning Leaf Dental gained 27 reviews in the scan period and moved to #10, directly replacing your former position. This competitor's review accumulation rate likely provided a stronger recency signal than your current stagnant profile.
- [MEDIUM CONFIDENCE] Your review volume underperforms category benchmarks. You hold 167 reviews (30th percentile by volume), while the category average is 390 reviews. The category leader has 1382 reviews. This review deficit may be affecting your competitive visibility independent of recent week-to-week changes.
- PROBABLE CAUSES

### YOUR STANDING

Confidence score is 10/10, meaning this data is complete and reliable. The rank drop from #10 to #19 is real and sustained across multiple weeks. Action to address review velocity should begin immediately rather than waiting for the next scan.

# Your Recovery Plan

October 29, 2026

## DO THIS NEXT

1. Implement a post-appointment review request system for cosmetic dentistry patients. Why now: Your 0.08 reviews per week cannot compete with Ace Dental Boston's acquisition rate (45 reviews in 12 weeks). Cosmetic dentistry patients are typically satisfied and willing to leave reviews if prompted at the right moment. Effort: Low. Expected impact: High.
2. Audit your Google Business Profile for completeness (photos, services listed, appointment booking enabled). Why now: At rank #19 you capture only 0.8% of local search clicks versus 70.3% for top-3 listings. Optimizing your profile visibility may recover some lost ground while review velocity improves. Effort: Low. Expected impact: Medium.
