- [HIGH CONFIDENCE] Your review volume sits at 37 total reviews compared to the category average of 311 reviews across your competitive set. The 25th percentile placement by review count suggests you are significantly underrepresented in the review volume metric that local search algorithms weight heavily. Competitors ranked above you average 2760 to 6605 reviews.
- [MEDIUM CONFIDENCE] The data shows volatile rank positioning over 9 scans: positions ranged from #3 best to #20 worst, with no sustained upward or downward trend until the recent drop to #18.
