WHAT HAPPENED

Green Lake Cosmetic Dentistry dropped 6 positions, moving from rank #5 to rank #11 between scans. During the 13-week measurement window, your profile accumulated 5 new reviews while three competitors directly above you each gained 1-2 reviews. Johnston Dental Artistry, a significant competitor, gained 17 reviews over the same period and climbed 7 positions to land at rank #7.

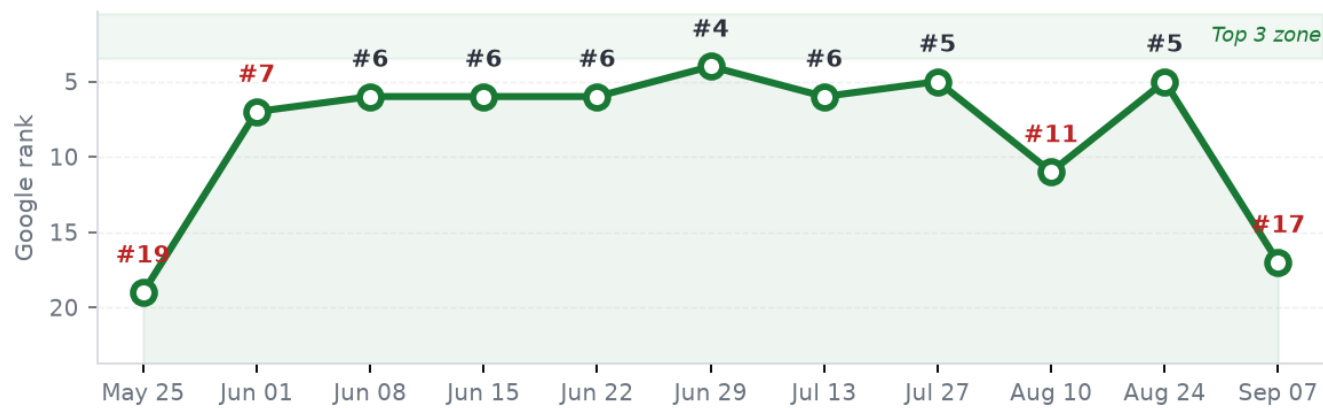

WHY YOU SLIPPED

- [HIGH CONFIDENCE] Review velocity is stagnant at 0.5 reviews per week. Johnston Dental Artistry gained 17 reviews in the scan period while you gained 5, creating a 3.4x review gap. This volume difference likely contributed to their rank improvement and your decline.
- [MEDIUM CONFIDENCE] Rank volatility over the last 6 weeks suggests algorithmic instability. Your positions swung from #4 (best) to #19 (worst) within a 6-week window, settling at #11. This pattern indicates your rank may be sensitive to review signals or other local factors that competitors are managing more consistently.
- [MEDIUM CONFIDENCE] Your review count (79 total) trails the market average (373 reviews) by 79%. While your rating matches the category average at 4.9 stars, the volume disadvantage likely limits your visibility and competitive strength.
