WHAT HAPPENED

On Time Service Plumbing dropped from position #4 to position #12 over the 7-week scan period -- an 8-position decline. During this same window, three competitors directly above your current position gained reviews at a faster rate: Precision Plumbing added 21 new reviews, Focus Plumbing LLC added 7, and Anytime Plumbing, Heating & Cooling added 6, while your profile accumulated 27 reviews total over 12 weeks at a velocity of 2.5 reviews per week.

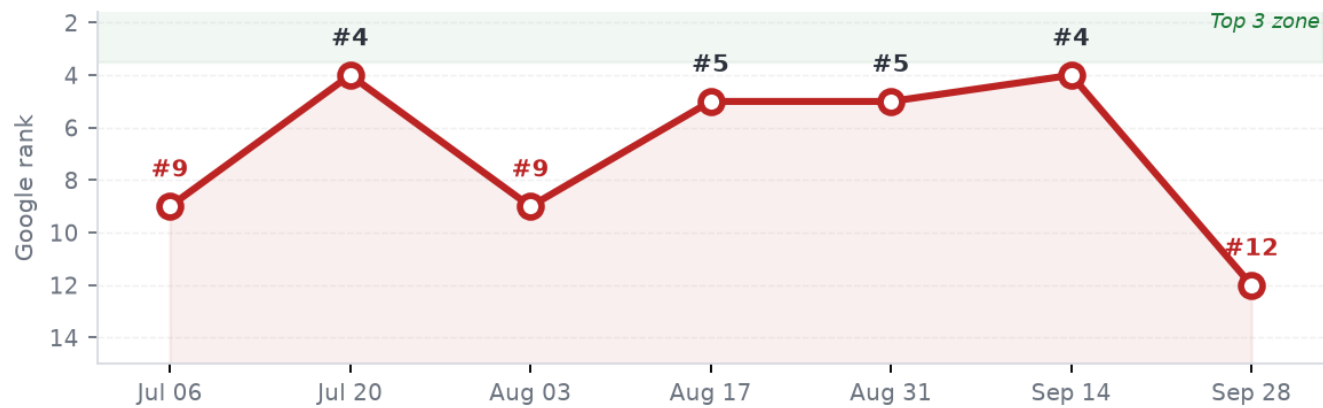

WHY YOU SLIPPED

- [HIGH CONFIDENCE] Competitors with higher review counts and active review velocity are occupying the top positions. Precision Plumbing (2455 reviews, #3), Anytime Plumbing, Heating & Cooling (1953 reviews, #2), and Focus Plumbing LLC (1762 reviews, #4) all maintain substantially larger review bases than your 399 reviews. The category benchmark shows your review volume places you in the 30th percentile among 20 measured competitors, while the category leader has 2455 reviews.
- [HIGH CONFIDENCE] Competitor review velocity outpaced yours in the measured period. Precision Plumbing gained 21 reviews and Active Plumbing gained 5 reviews during the scan window, while your 2.5-review-per-week velocity indicates slower accumulation relative to climbing competitors.
- [MEDIUM CONFIDENCE] Multi-week rank volatility suggests ranking instability rather than sustained positioning. Your rank history shows: #9, #4, #9, #5, #5, #4, #12 over 12 weeks, indicating you are vulnerable to rank swings within a 8-position range rather than holding steady ground.

YOUR STANDING

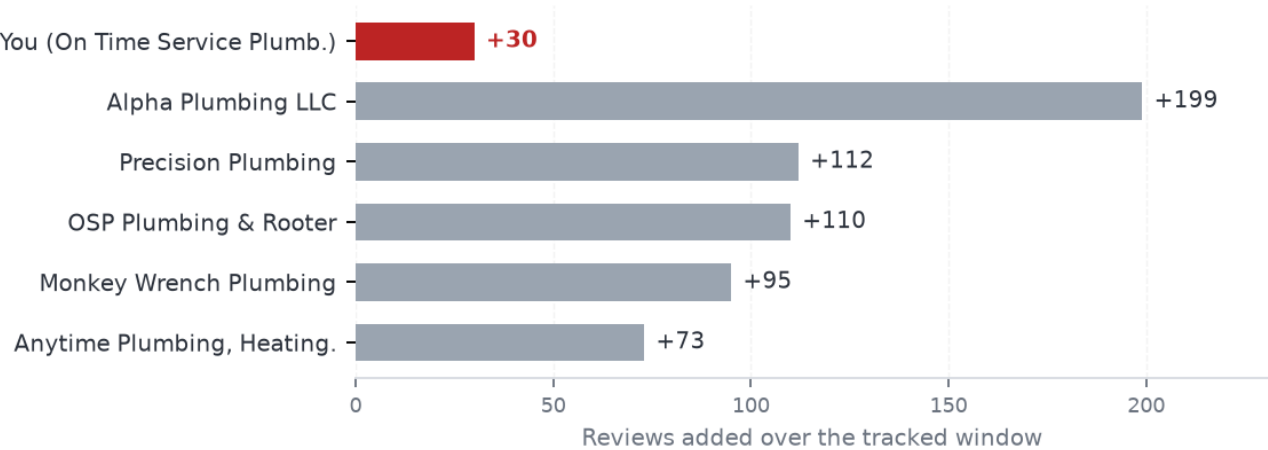

Confidence score is 10/10, meaning this data is complete and reliable. The rank drop from #4 to #12 is a sustained shift observed over the full 12-week period, not a single-week anomaly. The multi-week pattern supports that this decline is material and warrants action.

DO THIS NEXT

1. Implement a post-service review request system specific to emergency calls (same-day or next-day follow-up). Why now: Your review velocity of 2.5 per week significantly trails competitors gaining 5-21 reviews in the same period. Faster review accumulation is the direct signal separating #12 from top-3 positions. Effort: Low. Expected impact: High.
2. Analyze your 399 five-star reviews for common service keywords (burst pipe, weekend emergency, fast response) and amplify these in your Google Business Profile service descriptions and posts. Why now: Your 5.0 rating ties or exceeds all top-5 competitors (all 4.8-5.0 stars), so rating is not the constraint -- visibility is. The data shows rank captures 0.8% of clicks versus 70.3% for top-3. Effort: Low. Expected impact: Medium.
