WHAT HAPPENED

Harris Dental dropped from position #2 to position #8 over the 13-week scan period, a loss of 6 ranking positions in the Phoenix cosmetic dentistry category. During this time, three competitors directly above your current position gained new reviews: Biltmore Cosmetic & Restorative Dentistry Phoenix gained 4 reviews, Central Valley Dentistry & Implants gained 3 reviews, and Biltmore Dental Center gained 4 reviews, while Harris Dental added 22 reviews over the same timeframe.

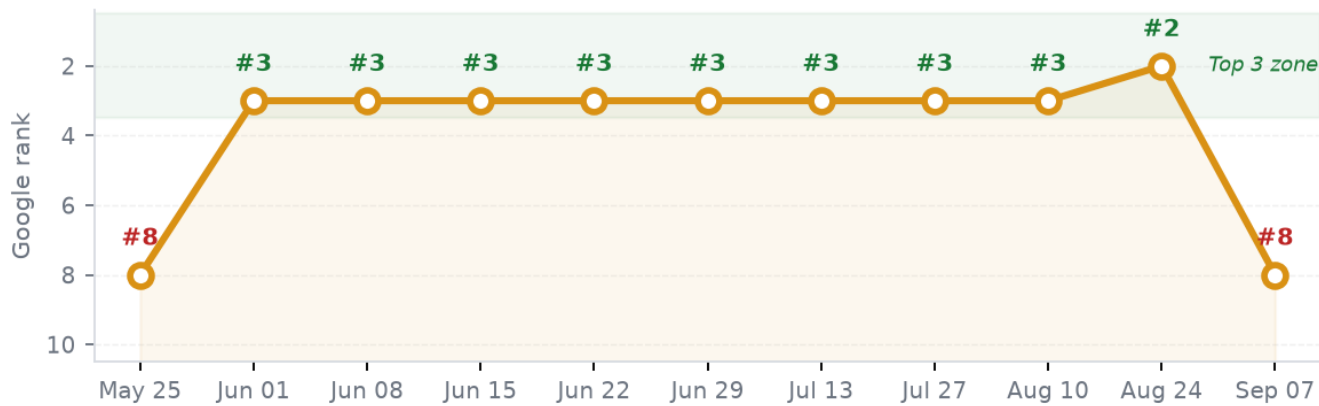

WHY YOU SLIPPED

- [HIGH CONFIDENCE] Your review velocity of 1.07 reviews per week lags behind at least two competitors who each gained 3-4 reviews in shorter windows. The data suggests review recency and volume momentum are contributing to rank pressure.
- [HIGH CONFIDENCE] Biltmore Cosmetic & Restorative Dentistry Phoenix and Biltmore Dental Center each gained 4 new reviews during the scan period while your rank declined, indicating competitor review activity correlates with their position maintenance above you.
- [MEDIUM CONFIDENCE] Your ranking has been volatile rather than steadily declining. The trend data shows positions of #3, #3, #3, #3, #3, #2, then #8, suggesting a sudden drop rather than gradual erosion. This pattern is consistent with algorithmic fluctuation rather than fundamental profile weakness.

YOUR STANDING

Your confidence score is 10/10, meaning this data is complete and reliable. However, your rank drop has occurred within a volatile 15-week trend where you held #2-#3 for most of the period before this recent decline. The sharp nature of the drop and your strong review count (784 reviews at 4.9 stars) suggest this may be a ranking fluctuation rather than a permanent loss. Recommend monitoring next week's scan closely before launching major remedial changes.

YOUR RANKING TREND (15 WEEKS)

Your rank is swinging week to week, a sign Google is re-testing you against rivals. Consistent profile activity stabilises it.

WHAT A FULL AUDIT MAPS FOR YOU

- Every competitor in your Local Pack ranked by reviews, rating, and recent movement.
- The exact review gap between you and the top 3 -- with a target to close it.
- Which Google Business Profile signals the leaders have that you are missing.

DO THIS NEXT

1. Accelerate review generation from recent cosmetic dentistry patients. Why now: Competitors holding positions #1-#7 are gaining reviews weekly; your 1.07 reviews per week is moderate but trailing the momentum of Biltmore competitors. Effort: Low. Expected impact: Medium.
2. Audit your Google Business Profile for any recent changes to hours, photos, service categories, or response rate. Why now: Sudden rank drops from #2 to #8 often correlate with profile signals rather than content gaps. Effort: Low. Expected impact: Medium.
