WHY YOU SLIPPED

- [HIGH CONFIDENCE] Your review velocity has stalled at 0.0 reviews per week. Competitors gained reviews while your profile remained static, and Google's ranking algorithms favor actively reviewed listings in the luxury real estate category.
- [MEDIUM CONFIDENCE] Gold Coast Realty Chicago moved from an unmeasured prior rank to #14 (a 5-position jump) and gained 1 review during the scan period, suggesting momentum in the local market. This competitor's 4.9-star rating and recent activity may have influenced your relative ranking drop.
- [MEDIUM CONFIDENCE] Your review volume of 67 places you at the 45th percentile within the luxury real estate category benchmark. The market average is 160 reviews. While your 5.0-star rating exceeds the 4.89 category average, the volume gap works against ranking strength.

YOUR STANDING

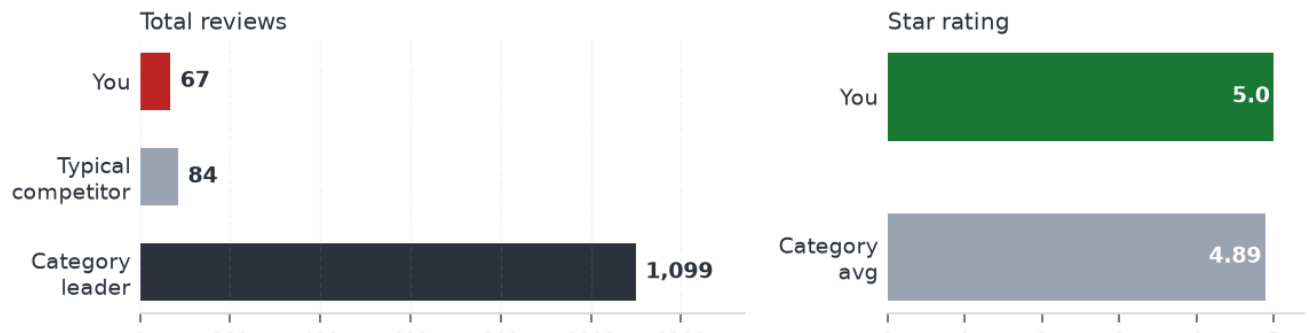

Confidence score is 9 out of 10, based on data completeness across 13 weeks. This high confidence means the 7-position drop is reliably measured. However, the rank decline has occurred over only 2.0 weeks of observation. Recommend monitoring next week's scan to determine whether this represents a sustained decline or a temporary fluctuation before investing in major profile changes.
