WHAT HAPPENED

Grace Globus dropped from position #3 to position #20 on July 30, 2026 -- a loss of 17 ranking positions. Over the 12-week scan period, your profile gained negative 5 reviews (velocity of -0.28 per week), while competitors directly above you acquired new reviews: Resident Group gained 8 reviews to reach rank #8, and Leslie Romenesko added 2 reviews while maintaining rank #3.

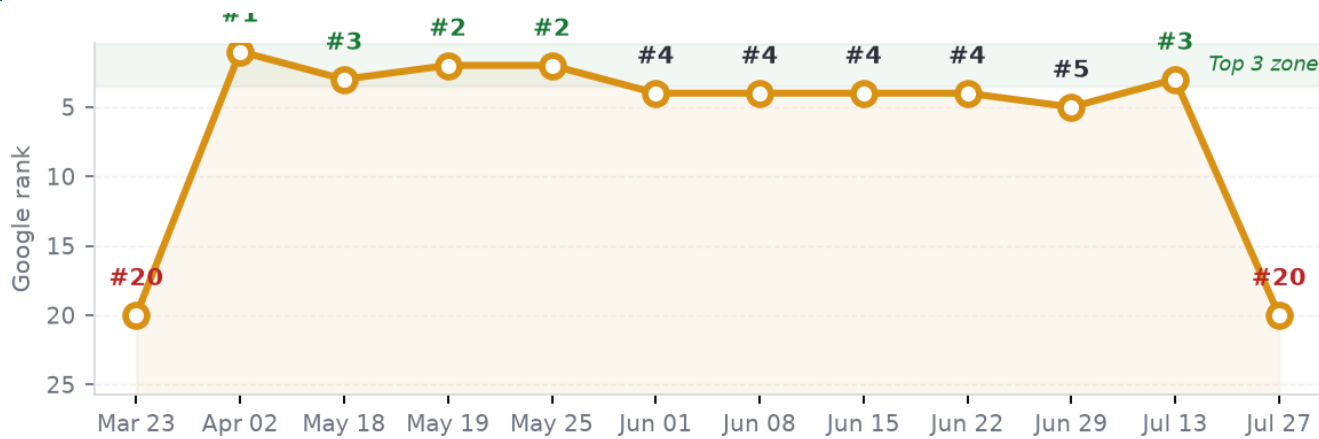

WHY YOU SLIPPED

- [HIGH CONFIDENCE] Review stagnation is the primary signal. Your profile recorded zero new reviews in the most recent week, and your cumulative review velocity stands at -0.28 per week. Competitors above you -- particularly Resident Group with +8 reviews and Solomon Property Group with +1 review -- are actively accumulating client feedback while you are not. Google's ranking algorithm favors actively reviewed businesses, and the data suggests this gap is material to your visibility loss.
- [MEDIUM CONFIDENCE] Rank volatility over the 12-week period indicates your position is unstable. Your ranking history shows positions #20, #1, #3, #2, #2, #4, #4, #4, #4, #5, #3, #20 -- a volatile pattern with a best rank of #1 and worst of #20. This oscillation suggests your listing may be sensitive to minor algorithm changes or review velocity fluctuations, leaving it vulnerable to large swings.
- [MEDIUM CONFIDENCE] A competitor with zero reviews and zero star rating now holds rank #1. Buy California Luxury Homes Realty Brokered Keller Williams Larchmont climbed +17 positions to #1 despite having 0 reviews and a 0.0 star rating. This unusual ranking pattern may indicate a technical issue, a recent business registration boost, or other non-review factors influencing the local pack. This does not directly explain your drop, but it reflects instability in the current rankings.

YOUR STANDING

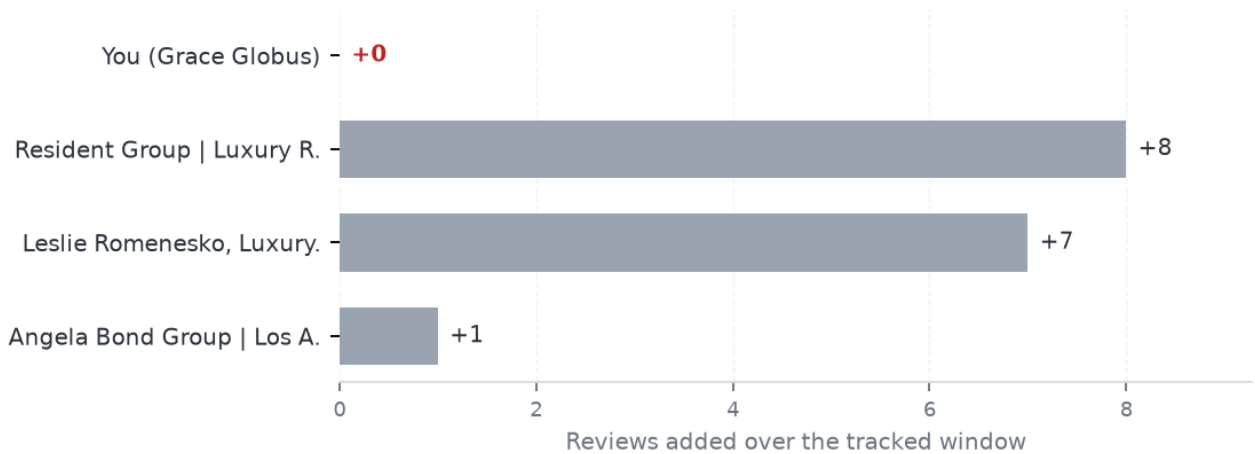

Confidence score is 10/10, meaning this data is complete and reliable. However, your rank volatility (#20 to #1 over 12 weeks) suggests the current #20 position may shift in the next scan. Recommend monitoring your ranking weekly before committing to major strategy changes.

YOUR RANKING TREND (18 WEEKS)

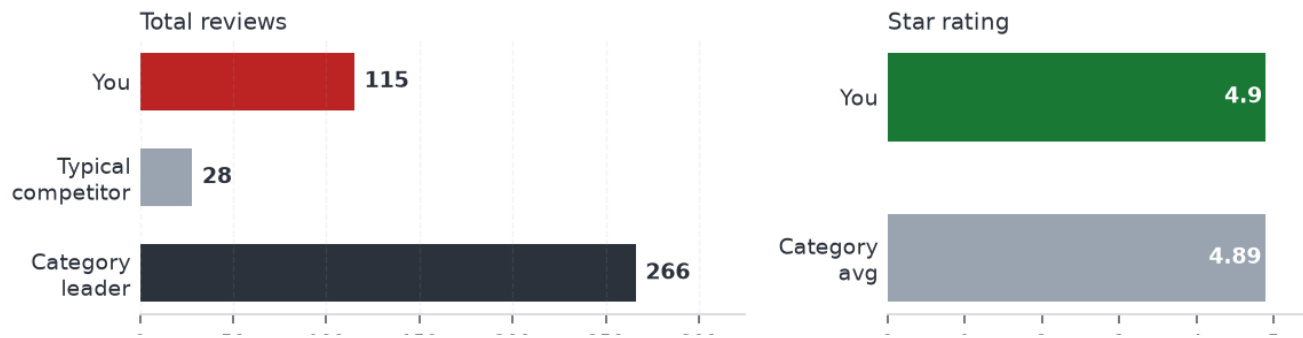

Your rank is swinging week to week, a sign Google is re-testing you against rivals. Consistent profile activity stabilises it.

THE REVIEW RACE -- WHO'S PULLING AHEAD

Reviews and their recency drive roughly 16% of local-pack position (Whitespark 2025). Competitors are adding them faster than you -- the top rival gained 8 in this window.

HOW YOU COMPARE IN YOUR CATEGORY

By review volume you are in the 85th percentile of your 20-listing pack -- ahead of most of your market. The category leader holds 266 reviews; the typical competitor holds 28.

You already hold more reviews (115) than the 19 listings ranked above you (avg 49). That points away from raw review count and toward proximity, your primary Google category, review recency, and profile activity as what is moving your rank. The recovery plan targets exactly those.

DO THIS NEXT

- 1. Launch a structured review request campaign targeting recent transaction closings. Why now: Your review velocity is -0.28 per week while Resident Group gained 8 reviews in the scan period; the gap is measurable and active. Effort: Low. Expected impact: High.
- 2. Audit and respond to existing 115 reviews (particularly the 4.9-star profile) to increase engagement signals. Why now: You hold the 85th percentile for review volume in your category, but zero new reviews this week signals your client base may not be prompted to leave feedback. Effort: Low. Expected impact: Medium.
