

PREPARED FOR

Advanced TRT Clinic

Regenerative Medicine | San Francisco, CA

Current Rank	Started At	Net Change	Rating	Reviews	Weeks Tracked
#20	#19	-1	4.7	12	13

At #20 you sit below the top 3 -- where ~70.3% of Google Maps clicks land. Your position now captures an estimated 0.8% of clicks, about 87.9x fewer searchers than a top-3 listing.

WHAT HAPPENED

Advanced TRT Clinic dropped 6 positions in rank, moving from #14 to #20 between scans. During the same period, three direct competitors each gained one new review while your profile remained stagnant at zero new reviews over the past 13 weeks. You currently sit at 12 total reviews versus a market average of 30 reviews for competitors in regenerative medicine in San Francisco.

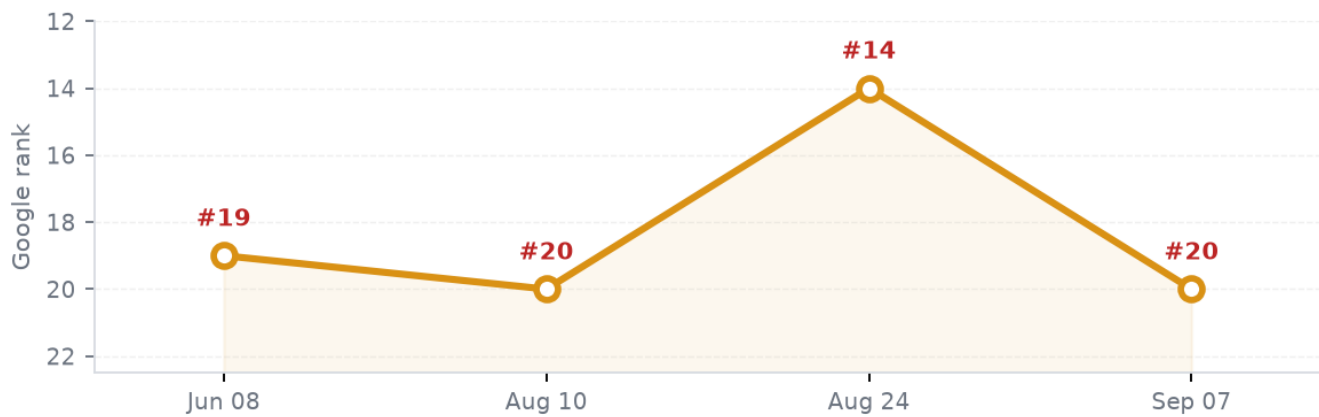

WHY YOU SLIPPED

- [HIGH CONFIDENCE] Review velocity has stalled at 0.0 reviews per week over 13 weeks while Recharge Medical, Regenerative Research Institute of Silicon Valley, and Smart Medicine SF each gained reviews in the measured period. Google's local ranking algorithm rewards active review flow, and competitors gaining reviews while you gain none creates a relative disadvantage.
- [MEDIUM CONFIDENCE] Rank volatility suggests instability in your standing. Your position has fluctuated between #14 and #20 over the last three weeks (#19, #20, #14, #20), indicating your ranking is not anchored by strong review signals or citation consistency that would stabilize placement.
- [MEDIUM CONFIDENCE] California Institute for Regenerative Medicine advanced 6 positions to rank #12 despite gaining zero reviews in the scan period, suggesting rank shifts in this category are driven by factors beyond review volume alone. Your decline mirrors this market movement, but competitors are holding ground better, likely due to higher absolute review counts and established rating consistency.

YOUR STANDING

Confidence score is 10/10, meaning this data is complete and reliable. The rank drop is sustained across multiple scans, not a single-week anomaly. Action is warranted now rather than waiting for confirmation.

YOUR RANKING TREND (13 WEEKS)

Your rank is swinging week to week, a sign Google is re-testing you against rivals. Consistent profile activity stabilises it.

WHAT A FULL AUDIT MAPS FOR YOU

- Every competitor in your Local Pack ranked by reviews, rating, and recent movement.
- The exact review gap between you and the top 3 -- with a target to close it.
- Which Google Business Profile signals the leaders have that you are missing.

DO THIS NEXT

- 1. Launch a systematic review request program targeting recent patients via email or SMS within 48 hours post-treatment. Why now: You have zero reviews in 13 weeks while competitors are earning them steadily; at your clinic's likely patient volume in San Francisco, even 2-3 reviews monthly would begin to halt the relative decline. Effort: Low. Expected impact: High.
- 2. Audit your Google Business Profile completeness (hours, services list, Q&A section, photos) and ensure all TRT-specific service categories are listed. Why now: Your rating (4.7 stars) matches the market average, so your review quality is competitive--the gap is volume and visibility. A complete profile may improve click-through rate from the 0.8% you currently capture. Effort: Low. Expected impact: Medium.

YOUR GOOGLE BUSINESS PROFILE CHECKLIST

x Adding >=1 review/week (recency signal)
You are at 0.0/week (stalled). Listings that add 3+/week consistently outrank those below 1/week.
